

Section: Narratives - Needs Assessment

Introduction

The findings of a recent study showed that there is a significant benefit to students who participate in out-of-school-time (OST) programs. In fact, the Return on Investment of Summer school Programs in Pennsylvania study determined that for every dollar invested in summer school programming for students there was a return of \$6.69 in potential benefits to students, including reduced rates for drop-outs, teen pregnancy, substance abuse, crime and delinquency ([Link PSAYDN.org](#)).

In accordance with the American Rescue Plan (ARP) Act and Pennsylvania Act 24 of 2021 (Act 24), the Pennsylvania Department of Education (PDE) will award approximately \$50,000,000 or one percent (1%) of Pennsylvania's ARP Elementary and Secondary School Education Relief (ESSER) State Reserve funds to support school districts, charter schools and cyber charter schools (collectively, LEAs) in the development and implementation of comprehensive after-school programs to address learning loss in response to the academic, social, emotional and mental health needs of students and subgroups of students impacted by COVID-19 public health emergency that supplement school programs and activities.

Act 24 requires that, when available, existing personnel shall be utilized by school districts, charter schools and cyber charter schools to staff programs and activities established with these grant funds.

Within 90 days of receipt of these allocations, school districts, charter schools and cyber charter schools must submit a three-part plan to PDE, that outlines the proposed use of the grant money, itemized by program and activity. This plan is part of a consolidated application that includes after-school programming, summer programming, and a comprehensive plan to address learning loss. The plan shall include:

- 1) A description of each program and activity
- 2) A narrative outlining the expected benefit of each program and activity
- 3) A budget for each program and activity detailing personnel and operating costs

PDE has developed the Accelerated Learning Toolkit, a significant cadre of resources and trainings, to support LEAs in the development of their plans. The Accelerated Learning Toolkit can be found [Link to Accelerated Learning Toolkit](#).

Section 1 - Needs Assessment: In this section, LEAs are asked to describe the impact of the pandemic on their students since March 2020.

Indicators of Impact

1. Describe how the LEA identified students for inclusion in a summer school program. Include a brief description of the indicators used in the decision-making process.

Building teams utilize academic performance in core content areas, attendance, behavior, and social emotional data to select and prioritize students who would most benefit from participating in a summer learning opportunity when staffing prevents unlimited student

enrollment.

Section: Narratives - Summer School Program Questions

Summer School Program Questions: In this section, LEAs are asked to describe the activities they have designed to provide summer school programming for their students.

2. Identify the target student-group for the summer school program. Will the focus be on academic growth, social and emotional wellness, or some other factor to support student growth? For each group, provide specific strategies that were used or will be used to identify and measure impacts.

Student Group	Area of Focus	Number of Students Served	Provide specific strategies that were used or will be used to identify and measure impacts
Children from Low-Income Families	Academic Growth	1,445	Regular program participation; Increase in scores from end of year 2021-2022 and beginning of year 2022-2023 Renaissance Star Math and Star Reading student assessments.

3. Describe the evidence-based resources that will be used to support student growth during the summer school program.

American Reading Company Summer Semester Kits
 Intensive reading intervention, thematic units, project based learning curriculum, building knowledge through inquiry, gradual release supporting independent reading, high interest book selections
 Math For Love Curriculum Kits and Manipulatives
 Play based rigorous supplemental curriculum, conceptual and hands on games encourage perseverance, flexible thinking, and deeper understanding
 Sphero Bolt and Little Bits (This may change due to unsatisfactory summer 2021 data.)
 Collaborative and creative play based coding challenges to write and execute programs, display characters, vector graphics, sensor data, and orchestrate complex movement using programmable robots

4. Describe the staff that will provide the summer school program (i.e., internal staff or outside resources).

Number of Staff Members	Internal/Outside Provider	Role
246	Internal Provider	Tutors, Program Assistants, Personal Care Professionals, Secretaries, Health Room Nurses, Bus Assistants, Site Coordinators
9	Outside Provider	Student Teachers
28	Outside Provider	Tutors, Program Assistants

a. The LEA assures it understands it is responsible to offer the work to its internal employees prior to engaging outside entities.

b. The LEA assures it understands it is responsible to ensure that all summer school program staff hold the appropriate certifications for the program that is being delivered.

5. How will the LEA assess the success of the summer school program? Please identify the tool, frequency of use, and expected results.

Tool Used to Evaluate Success	Frequency of Use	Expected Results
Renaissance Star Reading and Star Math	End of year 2021-2022 and beginning of year 2022-2023.	Individual student scores will increase at least 40 points, equivalent to an average growth of 5%-11% based on the 50th percentile at the end of the grade level year, in each content area

6. How will the LEA engage families in the summer school program?

Program information continues to be shared with families and family input into program operations is encouraged at every opportunity. Primary communication about summer programs with students and families occurs at the school level through channels established

during the school year, including use of communication apps and school websites. Through the district website, the district will communicate general summer program information and encourage interested families to contact their schools for details. The Extended Day/Year Programs, Parent Engagement, and Communications offices provide centralized communication and support individual families with specific concerns and questions.

Section: Budget - Instruction Expenditures

Instruction Expenditures

Budget
 \$470,657.00
Allocation
 \$470,657.00

Budget Over(Under) Allocation
 \$0.00

Budget Summary

Function	Object	Amount	Description
1400 - Other Instructional Programs – Elementary / Secondary	100 - Salaries	\$336,183.00	Teacher extra pay for summer 2023 and 2024
1400 - Other Instructional Programs – Elementary / Secondary	200 - Benefits	\$134,474.00	Teacher benefits for summer 2023 and 2024
		\$470,657.00
