### Welcome to the Emerging Innovator Awards Application Platform!

Amidst rapid change and intractable global challenges, the world needs young leaders to take ownership of the future. The Emerging Innovator Awards aim to inspire, connect, and empower the next generation of changemakers by recognizing the top-100 high school students from around the world whose extraordinary and innovative efforts are making a positive impact on others and helping to drive societal advancement.

Please Note: Judging will be based solely on the leadership impact video and the letter of recommendation. Judges will see only the candidate's name. No additional personal details or information about their high school will be provided.
